

The following table lists the orchids I have available for trade. "Last Bloom" refers to the parent plant before division. Question marks (???) mean no data or the last bloom was more than 12 months ago.

The attachments are pictures of about half the list. I'll send the remaining pictures on another e-mail.

Please let me know if you might want any of these orchids. I haven't had much success with phrags or phals since coming to TX, so I won't accept any in trade. Otherwise, I'm open minded.

If you'd like to see the plants before making up your mind, I'd be happy to give you a tour of my greenhouse.
